Downloading, installing & using the MP02 personalisation feature

This feature is not pre-installed on the MP02. It is available as a free download from Punkt.

Download and install
1. From the Main Menu, select Settings > Applications > Manage (Up/Down keys and Punkt key).
2. Select 'Personalise' and then 'Install'.

Setting up
1. From the Main Menu, select 'Personalise'.
2. Enter the name that is to be displayed on the screen. (Note that the name entered will not affect the phone's Bluetooth name, or anything else on the phone.)
3. Press the Down key and select 'Save' (the 'Call' key can be used as a shortcut).

Amending/deleting a display name
1. From the Main Menu, select 'Personalise'.
2. Delete the name (or just part of it) by repeatedly pressing the 'Back' key.
3. Press the Down key and select 'Save' (the 'Call' key can be used as a shortcut).

Uninstalling the personalisation feature
1. From the Main Menu, select Settings > Applications > Manage.
2. Select 'Personalise' then 'Uninstall'.
3. When prompted, confirm by pressing the 'Punkt' key.
